PROFESSIONAL EXPERIENCE

Application Support Technician | Utech/Endosoft **Aug 2026 - Present**

- Managed the ticketing lifecycle by answering phone calls, creating, documenting, and closing support tickets, while escalating complex technical issues as needed.
- Installed, configured, and maintained SQL Server, SSMS, Express, and local databases, alongside building new client systems prior to deployment.
- Provided comprehensive software support by installing and troubleshooting EndoVault, ARGUS, and ENR/GRS reports, while executing SQL queries for diagnostics.
- Delivered in-house IT support and maintained client account information within the ERP system.
- Facilitated client training on EndoVault usage and resolved integration issues by leveraging a comprehensive understanding of the EPIC API.

Data Labeling Contractor | Handshake AI **Nov 2025 - Present**

- Annotated and labeled datasets for training LLMs, focused on improving model accuracy in areas like logical reasoning, creative writing, and technical code generation.
- Performed RLHF by ranking model-generated responses based on honesty, harmlessness, and helpfulness (HHH) criteria.
- Conducted quality assurance on peer-labeled data to ensure adherence to project requirements.
- Identified edge cases and hallucinations in AI responses and provided detailed feedback to engineering teams to refine data collection.
- Balanced high-volume throughput with strict accuracy standards to meet project deadlines in a fast-paced, remote environment.

Assistant Store Manager / Parts Sales / Inventory | AutoZone **Dec 2021 - Oct 2026**

- Communicated with a variety of clients in-person and over the phone to ensure customer satisfaction.
- Conducted interviews and processed onboarding documentation for new hires.
- Trained employees in their roles within their department and delegated responsibilities to ensure smooth business operation.
- Created weekly schedules for 50+ employees and managed 3 unique departments: retail, commercial, and hub operations in the upstate NY region.
- Processed and managed truck shipments 3 times a week in a warehouse environment; scanned and verified quantity-on-hand for new and existing inventory.

IT Help Desk Technician 1 | Maximus **Oct 2023 - Mar 2024**

- Provided Tier 1 technical support to end-users, resolving hardware, software, and network issues in a timely and efficient manner.
- Diagnosed and resolved technical issues via phone, email, and remote desktop tools, achieving a high first-call resolution rate.
- Maintained and updated the ticketing system to track and document issue resolution.
- Provided support for VPN and remote access technologies, ensuring secure and reliable connectivity for remote employees.
- Collaborated with cross-functional teams to escalate and resolve complex technical issues, achieving a consistent 90%+ satisfaction rate on Call and Ticket scoring.

Retail Sales Manager & Service Advisor | Pep Boys **Aug 2019 - Oct 2021**

- Assisted walk-in, commercial, and over-the-phone customers by providing price and availability of inventory.
- Procured parts from various vendors to meet customer needs.
- Performed opening and closing store tasks and scheduled appointments for customers needing vehicle maintenance.
- Managed and communicated with service technicians in the workshop for an efficient customer experience.

EDUCATION

University at Albany **Expected May 2027**

M.S. in Digital Forensics and Cybersecurity | GPA: 3.7

University at Albany **Graduated May 2026**

B.A. in English, Minor in Game Design & Development | GPA: 3.7 | Magna Cum Laude

Honors & Activities: Dean's List (Spring & Fall 2025, Spring 2026), Dr. Seth Spellman, Jr. Award for Academic Achievement (Spring 2026), UAlbany Showcase Presenter (Fall 2025), NSLS Online Member.

Schenectady County Community College **Aug 2019 - Dec 2022**

Coursework in Cyber Security | GPA: 3.33

Honors: Dean's List (Fall 2019), President's List (Spring 2022).

ACADEMIC PROJECTS

Digital Forensic Investigations | Computer Forensics **Fall 2026**

- Examined forensic disk images in Autopsy to recover deleted and hidden files, run keyword searches, and identify document and email evidence; documented findings in examiner notes and formal reports.
- Verified file integrity through hash and metadata comparison, and carved a JPEG hidden inside a text file by its file signature using HxD.
- Analyzed a packet capture of a telnet intrusion in Wireshark, verifying the evidence hash and reconstructing the attacker's activity timeline.

Windows Server & Linux Administration Labs | System Administration & OS Concepts **Fall 2026**

- Built and administered Windows Server 2025 and Kali Linux virtual machines: users, groups, and authentication; NTFS/ext4 permissions; processes, services, and patching; and remote access via RDP, PowerShell Remoting, SSH, and VNC.

Python Data Analytics | Tools for AI & Data Analytics **Fall 2026**

- Cleaned, merged, and visualized real-world datasets with pandas and seaborn; applied descriptive statistics, t-tests/ANOVA, and linear regression with SciPy.

University Risk Assessment Plan | Information Security Risk Assessment **Fall 2026**

- Co-developed a risk assessment plan for a large public university, defining risk appetite and tolerance, mapping threat actors to asset categories, and authoring the assessment approach and process.

TECHNICAL SKILLS

Programming & Data Analysis: C++, C#, Python, Java, HTML, CSS, pandas, NumPy, seaborn, SciPy.

Digital Forensics & Security: Autopsy, HxD, Wireshark, Kali Linux, NIST CSF, Risk Assessment, TryHackMe.

IT & Networking: Networking Fundamentals, Active Directory, Windows Server, Linux Administration, PowerShell, SQL Server, Virtual Machine Management, Windows Disk Manager, Software & Hardware Troubleshooting.

Game Development: Unreal Engine, Unity, Godot, Construct, Twine, Figma, Blender, Physical Game Development.

AI & Professional: Prompt Engineering, AI Model Evaluation & QA, Data Annotation & Labeling, Technical Writing.
